

STOURFLEX®

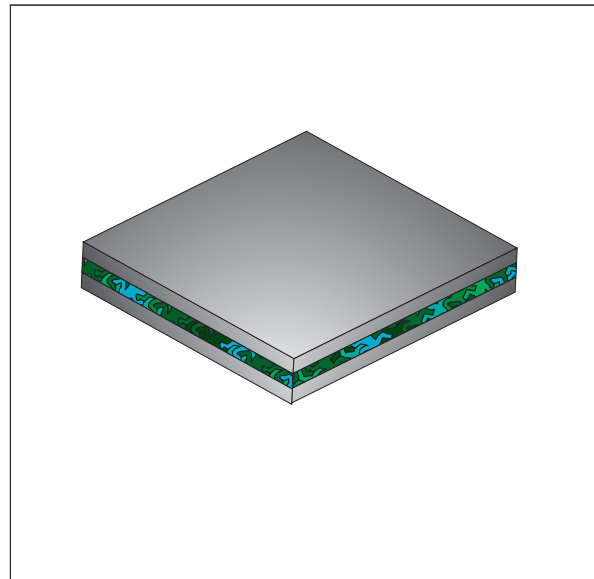

J & P Supplies Ltd

Expansion Joints & Pipeline Equipment

Type JP 370 N.C.N. Pads.

Specification Neoprene cork neoprene pads consisting of a single layer of cork bonded between two layers of neoprene rubber.

Application Stourflex N.C.N. pads are designed to provide a simple method of reducing noise and vibration on pumps, fans and motors etc where minimum movement is important. N.C.N. pads are resistant to attack by most oil products.

Part Number.	Length. (mm)	Width. (mm)	Thickness. (mm)
JP 370 A	500	250	18
JP 370 B	500	500	18
JP 370 C	700	500	18
JP 370 D	700	700	18
JP 370 E	1000	500	18
JP 370 F	1000	700	18
JP 370 G	1500	1000	18
JP 370 H	2000	1000	18

The above table shows an indication of the sizes available. Sizes above 1500mm x 1000mm will be supplied in two or more pieces.

Stourflex **Type JP 370** anti-vibration pads can be supplied with alternative thicknesses when required. Alternative Stourflex anti-vibration products are available on request, for example neoprene waffle pad, neoprene ribbed matting and plain neoprene matting etc.

Stourflex products should be installed in accordance with our fitting instructions.
